- ⁴⁰ Interview with Lloyd Greiner, October 26, 2000. Interview conducted by Robert Autobee in Westminster, Colorado, as part of Western's oral history program.

⁴¹ The case that changed Reclamation's policy was Northern California Power Agency, et. al. v. Morton (District of Columbia District Court, 1975). The District Court stated that due process required Reclamation to permit its customers to question the basis for rate changes and to provide meaningful comments on the proposed rates before they go into effect. The court also said that Reclamation had to develop some procedures allowing for public input in its rate process.
