

Follow-Up Informal Customer Rates Meeting

The Colorado River Storage Project (CRSP) Management Center will be hosting a follow-up informal customer meeting to discuss the issues that may affect the current Salt Lake City Integrated Projects (SLCA/IP) firm power rate. Subjects for discussion will include an update from the June 19, 2007, meeting, Shortage Criteria EIS's preferred alternative, Sustainable Hydro Power (SHP), and possible effects of the Long Term Experimental Program (LTEP) EIS on hydropower.

The Preliminary SLCA/IP FY 2007 PRS shows a 14% increase at this time, which does not factor in the issues mentioned above. At this time, Western is considering a SLIP firm power rate adjustment. In addition, the CRSP Point-to-Point, Network transmission service, and ancillary service rate formulas will be renewed. The proposal is to have these rate adjustments effective October 1, 2008.

August 21, 2007 Colorado River Storage Project
Management Center
Tuesday Large Conference Room
10:30am 150 E. Social Hall Avenue, Suite 300
Salt Lake City, Utah

To participate via conference call

- ~Dial – 720-962-7661
- ~When prompted, dial conference code 082101#
- ~If you have any problems joining in on the conference call, please call 720-962-7000

*If you plan on participating via conference call, please contact Tamala Gheller at 801-524-6388 or gheller@wapa.gov no later than August 17th

*****Please Note*****

- Updated and/or new items, will be distributed at the meeting
- Conference call participates - Call or e-mail Tamala no later than August 17th to receive updated and/or new materials
- Those in need of all materials, contact Tamala no later than August 15th to allow adequate time for assembling and mailing the materials

We look forward to your attendance. If you have any questions, please contact Carol Loftin at (801) 524-6380 or loftinc@wapa.gov.
