Need a diverse portfolio?

Western can help

Purchase Power Portfolio

■ 7x24 BaseLoad, SP15 ■ 7x24 BaseLoad, NP15 ■ Off Peak ■ 6x16 On-Peak ■ Spot Market

Our mission is simple. We want to help our customers save money and provide superior customer service.

We understand every organization has different energy needs. That's why DSW EMMO can help you identify options in meeting your energy requirements and seek economic buying opportunities.

We can help evaluate your energy needs, formulate and execute a robust purchase power strategy that provides the most economical and efficient way to meet your load requirements.

Customers execute individual marketing contracts with Western to allow for payment of Western's cost of supplying services.

How DSW EMMO can help you:

Analysis
