Dear Mr. Carlson:

Aha Macav Power Service has reviewed the Federal Register Notice dated July 17, 2006 (71 FR 40503) entitled "Parker/Davis Post 2008 Resource Pool" and is in support of the proposed allocations. The proposed allocation of summer resources to AMPS is coincident with the Tribes peak irrigation pumping needs. The timely and economic irrigation of Tribal farm lands during the 90 to 120(+) degree summer period is critical to the success of the Tribes cotton and alfalfa crops. These Tribal farm lands are an integral part of the Fort Mojave Indian Tribes business plan and provide Tribal members with numerous employment opportunities.

Sincerely;

William L. Cyr
