Re: Comments on Marketing of Parker-Davis Power and Energy

Dear Mr. Carlson:

Our entity is a member of the Eastern Area Preference Pooling Association ("EAPPA") and appreciates this opportunity to file and make comments on the proposed marketing of the Parker-Davis power and energy. Our entity has a utility function of helping to meet the electric requirements of water, wastewater, street lighting and other components of electrical needs of our community.

The preliminary allocation indicated in the Federal Register will be of great assistance to us in meeting those needs and providing economic benefits to the members of our community.

We appreciate Western's consideration and determination of an allocation to be awarded to us. We look forward to being customers of Western and participants in the federal public power program that Western administers.

Sincerely,

Mary Nedrow  
Vice-Mayor  
Town of Springerville
