**Subject:** PDP FES Customer Meeting

Good Morning Jean,

I want to touch bases with you regarding the meeting today. We will not be able to attend, among other obstacles today, we have our monthly board meeting .

It is my understanding that CRC worked closely with you in arriving at the wording changes that they requested to the FES Amendment. My only real interest in their requests for changes are the changes to 2.4 and 2.5. We are in agreement with paying for energy and transmission in advance and certainly want the wording to be such that it best meets the needs of both Western and the Bureau.

I would appreciate it if you could forward any information from the meeting.

Thank you,

Susan Lozier
