Subject: Proposed Intertie Project rate increase; data response; request for extension of time
Attachments: Intertie Rate Increase Data Request 081412.doc

Dear Darrick:

In response to my data request from August 14th, Jack Murray sent a disk which we received on September 4, 2012 and immediately transferred to Dennis Delaney of K.R. Saline & Associates. Dennis advises me that the data on the disk is sufficiently voluminous that there is no way they can complete an analysis of that data in time for a response today.

Therefore, we are asking for a two-week extension to and including September 24, 2012 in order to properly analyze the data that we have received and comment on it. Our understanding is that the proposed rate increase will cause some considerable rate shock in certain quarters and that some people may not have been made aware of the proposal in time to have an opportunity to participate fully in the process.

Thank you for consideration of this request. Please let us know whether the additional time will be made available.

Sincerely,
Robert S. Lynch
