Good afternoon,

Materials for the Aug. 19 webinar on WAPA's proposed Open Access Transmission Tariff revisions are now available on WAPA's [Open Access Same-Time Information System](#).

The materials include the webinar presentation and redlines for WAPA's OATT and Large and Small Generator Interconnection Procedures and Agreements. Their availability also initiates a 30-day informal comment period for customers and other stakeholders that will end Sept. 16.

WAPA posted a [notice of intent](#) on OASIS July 26 to revise our OATT in order to address Federal Energy Regulatory Commission [Order No. 827](#) and [Order No. 842](#) and make other clean up and maintenance updates.

We want to hear from you as we evaluate these changes. [Join us for the webinar](#) Aug. 19 at 10 a.m. MT to review the proposed revisions and the expected filing schedule.

If you have any questions or comments, contact your WAPA OATT regional contact:
