Good morning,

I wanted to provide a quick update on our annual funding. We are currently operating under a continuing resolution that expires at midnight Nov. 21. Congress is considering a continuing resolution that will fund the federal government through Dec. 20. The CR will need to be passed by Congress and signed by the president by midnight Nov. 21 in order to prevent a government shutdown.

Regardless of the status of the continuing resolution, WAPA will continue normal operations past Nov. 21. Thanks to sound financial management, healthy reserve balances and prudent planning with and support from our customers, WAPA operations will not be immediately impacted if there is a lapse in appropriations.

Employees will report to work as normal to fulfill our mission to provide renewable, reliable power to our customers. As always, we will continue to monitor the situation and communicate any change in direction as events unfold.

Thank you for your continued support of WAPA and its mission.

Dennis R. Sullivan | Chief Financial Officer
