Western Area Power Administration

Powering the energy frontier

Good morning,

We wanted to provide a brief update on [Open Access Transmission Tariff Revision 21-01](#) for Federal Energy Regulatory Commission Order 845.

On Aug. 2, we posted the stakeholder comments and our responses on WAPA's [Open Access Same-Time Information System](#) as well as the final OATT revision redline documents. As noted, we made several nonmaterial edits for consistency and formatting.

The next steps for OATT Revision 21-01 are:

- Filing at FERC around Sept. 17.
- Posting necessary additional information to Business Practices.
- Revision effective about 90 days after FERC filing (expected Dec. 15).

We greatly appreciate your participation and comments on the proposed revisions. Additional information and updates will be posted on [WAPA's OASIS](#).

If you have any questions or comments, contact your WAPA OATT regional contact:
