Good afternoon,

Materials for the July 8 webinar on WAPA's proposed Open Access Transmission Tariff revision 20-01 are now available on WAPA's [Open Access Same-Time Information System](#).

As stated in the June 1 [notice of intent](#), OATT revision 20-01 will address Sierra Nevada's participation in the the California Independent System Operator Western Energy Imbalance Market starting April 1, 2021 and make other clean up and maintenance updates.

The materials include the webinar presentation and redlines for WAPA's OATT including a proposed new OATT Attachment S. The availability of this material starts a 30-day informal comment period for customers and other stakeholders that will end July 31.

We want to hear from you as we evaluate these changes. [Join us for the webinar](#) July 8 at 10 a.m. MT to review the proposed revisions and the expected filing schedule.

If you have any questions or comments, contact your WAPA OATT regional contact:
