Good morning,

Following the June 22 webinar on WAPA's proposed Open Access Transmission Tariff revision 20-02, WAPA received a request to extend the informal comment period to allow stakeholders and customers more time to review the proposed revisions. Based on this request, WAPA has extended the informal comment period for OATT revision 20-02 to end July 30. A notice of this extension has been posted on its [Open Access Same-Time Information System](#).

Please submit written comments by email to: [tariffcomments@wapa.gov](mailto:tariffcomments@wapa.gov)

As stated in the June 1 [notice of intent](#), OATT revision 20-02 will address the Colorado River Storage Project's and Rocky Mountain's participation in the Southwest Power Pool Western Energy Imbalance Service market starting Feb. 1, 2021 and make other clean up and maintenance updates.

If you have any questions or comments, contact your WAPA OATT regional contact:
