

# For Visitors: COVID-19 Safety Guidance

As a federal agency, WAPA is required to follow COVID-19 guidance from the Safer Federal Workforce Task Force. We have opened our facilities to meet with customers and other visitors. Please follow these protocols when you are planning to visit a WAPA facility.

**Before you arrive:**

- Coordinate with your WAPA contact to confirm where you are meeting and in which county the facility is located.
- **Before your visit**, check the [CDC COVID-19 community level](#) for that county.
  - If the level is high, please plan to wear a well-fitted mask throughout your visit.
- **Day of visit:**
  - **Bring a mask with you.** If the community level is high, masks are required in WAPA facilities. If you forget a mask, WAPA will provide you one.
  - Complete this [self-screening questionnaire](#), and reschedule your visit if your answer is 'yes' to any of the questions.

**When you arrive at WAPA's facility:**

- Check-in with your WAPA contact and/or security.
- Your contact will escort you and let you know of any additional COVID-related safety protocols. Please follow all safety guidance provided by your contact and signage within the facility.

CDC Community Level	Masking
HIGH	Required
MEDIUM	Not Required
LOW	Not Required
