Re: Support for Parker-Davis Process and Preliminary Allocations

Dear Mr. Carlson:

The Arizona Municipal Power Users' Association ("AMPUA") is an association of consumer-owned and operated electrical systems and it consists of cities and towns, rural electric distribution and generation cooperatives, special districts, irrigation and electrical districts, water conservation districts, agricultural improvement districts and Indian utilities. Collectively the members deliver almost one-half the electricity in Arizona to over two million people. Many of our members are customers of Western and its Parker-Davis Project. Some are not.

Our Association wishes to go on record as being supportive of the process employed by Western in allocation of the Parker-Davis Project pool and are also supportive of making permanent the preliminary allocations indicated in the Federal Register.

The process was complete, thorough, fair and open. Our Association and its members particularly appreciate that they all had chances to supplement their applications (it is important to note that several of our members were unsuccessful applicants, but believe that the process was fair).

Mr. J. Tyler Carlson
9/15/06

Our Association also supports the feelings of applicants asking that any data submitted be considered proprietary and confidential (we make this request on behalf of unsuccessful applicants as well as successful applicants).

Sincerely,

ARIZONA MUNICIPAL POWER USERS'
ASSOCIATION

By  _____
Its Executive Secretary
