

Vision: Western will be a premier power marketing and transmission organization.

Mission: Western markets and delivers reliable, cost-based hydroelectric power and related services.

About Western

Western Area Power Administration markets and delivers cost-based hydroelectric power and related services throughout a 15-state region of the central and western United States. We're one of the four power marketing administrations in the U.S. Department of Energy. Our customers are municipal utilities, rural electric cooperatives, public utility and irrigation districts and Federal and state agencies.

Western at a glance

Marketing profile	FY 2003
Firm energy revenue	\$649 million
Nonfirm energy revenue	\$136.7 million
Total energy sales	35.6 billion kWh
Composite firm rate	16.6 mills
Coincident peak load	5,863 MW

Western's covers 1.3 million square miles (3.38 million square kilometers). Western's wholesale power customers provide service to millions of consumers in 15 western states (Arizona, California, Colorado, Iowa, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, South Dakota, Texas, Utah and Wyoming). In addition to our Corporate Services Office in Lakewood, Colo., Western operates and maintains the transmission system from its four regional offices in Billings, Mont.; Phoenix, Ariz.; Loveland, Colo.; and Folsom, Calif. We market power from these regions and our CRSP Management Center in Salt Lake City, Utah.

We:

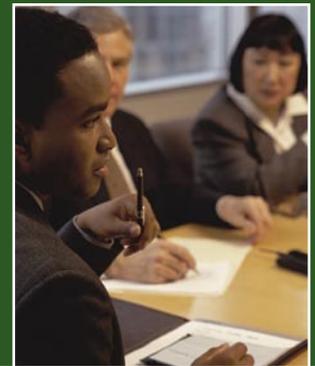

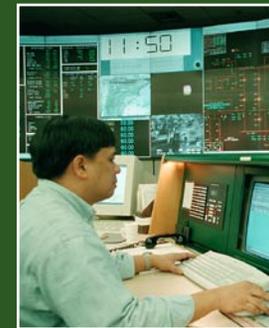

- supply hydroelectric power to 683 wholesale power customers.
- operate and maintain more than 17,401 miles of transmission lines, 268 substations and other related facilities.
- sell an average of 40 billion kilowatt hours of power—enough to serve about 12 million homes for one year.
- employ about 1,300 Federal employees and 300 contract workers.
