Sent via E-mail

Dear CRSP Management Center Customer:

Enclosed is a copy of the Salt Lake City Area Integrated Projects (SLCA/IP) Firm Power and Colorado River Storage Project (CRSP) Transmission and Ancillary Services Rates Notice of Extension for Rate Order No. WAPA-161.

Western Area Power Administration initiated an extension of the SLCA/IP firm power and CRSP transmission and ancillary services rates by publishing a notice in the *Federal Register* on September 13. This extends the current SLCA/IP and CRSP rates, effective October 1, 2013, through September 30, 2015.

If there are any questions, please contact me at (801) 524-4007 or rbailey@wapa.gov.

Sincerely,

A handwritten signature in black ink that reads "Rodney G. Bailey". The signature is fluid and cursive, with the first name being the most prominent.

Rodney G. Bailey
Power Marketing Manager
