JAN 21 2020

Dear Colorado River Storage Project Management Center Customer:

The Colorado River Storage Project Management Center (CRSP MC) initiated the public process for a rate adjustment with the publication of the Federal Register notice proposal on January 21, 2020. The Comment and Consultation period will extend through April 20, 2020.

A copy of the Federal Register notice proposal is enclosed.

The Rate Brochure explaining the need for the proposed rate adjustments for the Salt Lake City Area Integrated Projects firm power, CRSP transmission, and ancillary service rates will be provided via email no later than January 31, 2020. WAPA will also post the brochure and the separate documentation supporting the proposed rates to its website at:

<https://www.wapa.gov/regions/CRSP/rates/Pages/rates.aspx>. Both the brochure and supporting documentation will be updated throughout the rate process as data become available.

WAPA will present a detailed explanation of the proposed rates and modifications at a public information forum on March 12, 2020, 11 a.m. to 1 p.m. MDT, followed by the public comment forum from 1:30 p.m. to 3 p.m. MDT, in which WAPA will accept oral and written comments. The forums will be held at the Wells Fargo Building, 23rd Floor Conference Room, 299 South Main Street, Salt Lake City, Utah.

We look forward to working with you during the comment and consultation period. If there are any questions, please contact me at (970) 252-3005 or tvigil@wapa.gov. You may also contact Thomas Hackett, CRSP Rates Manager, at (801) 524-5503, or hackett@wapa.gov.

Sincerely,

Timothy A. Vigil
Vice President of Power Marketing
CRSP Management Center
