Dear Central Arizona Project Transmission Customers and Interested Parties:

Enclosed is the Federal Register notice (FRN) published March 26, 2013 (Volume 78, FR No. 58, page 18335, Rate Order No. WAPA-158). The FRN gives notice of extension of Transmission Service Rate Schedules for the Central Arizona Project (CAP) 115/230 kV transmission system, as set forth in the CAP Schedule of Rates for Firm Point to Point Transmission Service, CAP-FT2, Schedule of Rates for Network Integration Transmission Service, CAP-NITS2, and Schedule of Rates for Non-Firm Point to Point Transmission Service, CAP-NFT2.

The formula rates set forth in the referenced schedules expired December 31, 2012. The proposed action will extend the existing formula rates effective through December 31, 2015. The rates will continue to be recalculated on an annual basis by inputting updated financial and transmission reservation data into the rate formulas. The rates will be adjusted, if necessary, and will be effective January 1 of each calendar year.

If you have any questions or require additional information, please call me at (602) 605-2442 or Ms. Christina Vides at (602) 605-4478.

Sincerely,

A handwritten signature in black ink, reading "Jack D. Murray". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Jack D. Murray  
Rates Manager
