**Subject:** CRSP-DSW Combined Transmission Service Rate - Work Group Meeting Reminder

Dear Colorado River Storage Project and Desert Southwest Region Customers,

Thank you for your recent attendance at the combined transmission rate work group meeting on November 19, 2020. The next combined transmission rate work group meeting is scheduled for December 16, 2020, at 10 a.m. (MST).

The presentation and supporting information from the November meeting and the Webex information for the December meeting are available now on our website at <https://www.wapa.gov/regions/DSW/Rates/Pages/CombinedTransRate.aspx>.

At the December meeting, we plan to address additional customer comments, specifically focusing on impacts to existing contracts the combined rate might create, and we will explore the similarities and differences in how long-term work plans and rates are reviewed and coordinated with customers. There are some significant differences in customer involvement and how funding is provided in the CRSP, Parker-Davis, and Intertie projects.

If you have questions or need additional information, please contact Brent Osiek or Scott Lund at the contact information listed below or [onerate@wapa.gov](mailto:onerate@wapa.gov).

Sincerely,

**Brent Osiek | Program and Regulatory Advisor**
