

**ENVIRONMENTAL REVIEW FOR CATEGORICAL EXCLUSION DETERMINATION**

**Rocky Mountain Region, Western Area Power Administration**

**Poncha Springs Substation 230-kV Bay Addition (Amended)  
Chaffee County, Colorado**

- A. **Brief Description of Proposal:** Under an existing network service agreement, Western Area Power Administration (Western) issued a Categorical Exclusion (CX) on March 7, 2012, for approval of an interconnection request from the Public Service Company of Colorado (PSCo). The interconnection required a single-breaker 230-kV bay in Western's Poncha Springs Substation. The network service original components remain the same. However, with recent design changes, the project at PSCo's Poncha Junction Substation requires that Western relocate two (2) to three (3) structures on its North Gunnison – Salida 115-kV Transmission Line. The relocated structures would terminate at Western's Salida Switchyard which is adjacent to and electrically connected to PSCo's Poncha Junction Substation.

This CX amends the original and covers the portions of the project for which Western will have ownership. The original CX can be viewed on Western's webpage at the following web address: [www.wapa.gov/rm/Environment/default.htm](http://www.wapa.gov/rm/Environment/default.htm).

- B. **Number and Title of the Categorical Exclusion Being Applied:** (See text in 10 CFR Part 1021, Subpart D.)

**B4.1 Contracts, policies, and marketing and allocation plans for electric power**

Establishment and **implementation of contracts, policies, and marketing and allocation plans related to electric power acquisition that involve only the use of the existing transmission system and existing generation resources operating within their normal operating limits.**

**B4.11 Electric power substations and interconnection facilities**

**Construction or modification of electric power substations or interconnection facilities (including, but not limited to, switching stations and support facilities).**

- C. **Regulatory Requirements in 10 CFR 1021.410 (b):** (See full text in regulation and attached checklist.)

- 1) The proposed action fits within a class of actions listed in Appendix A or B to Subpart D.

For classes of actions listed in Appendix B, the following conditions are integral elements. To fit within a class, the proposal must not:

- Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety, and health, or similar requirements of DOE or Executive Orders;
- Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities;
- Disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases;

**ENVIRONMENTAL REVIEW FOR CATEGORICAL EXCLUSION DETERMINATION**

**Rocky Mountain Region, Western Area Power Administration**

**Poncha Springs Substation 230-kV Bay Addition (Amended)  
Chaffee County, Colorado**

- Have the potential to cause significant impacts on environmentally sensitive resources. An environmentally sensitive resource is typically a resource that has been identified as needing protection through Executive Order, statute, or regulation by Federal, State, or local government, or a federally recognized Indian tribe. An action may be categorically excluded if, although sensitive resources are present, the action would not have the potential to cause significant impacts on those resources (such as construction of a building with its foundation well above a sole-source aquifer or upland surface soil removal on a site that has wetlands). Environmentally sensitive resources include, but are not limited to, those listed in paragraph B. (4) (see Attachment A).
- 2) There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal.
  - 3) The proposal is not “connected” to other actions with potentially significant impacts, is not related to other proposed actions with cumulatively significant impacts, and is not precluded by 40 CFR 1506.1 or 10 CFR 1021.211.

**D. Special Stipulations Pertaining to the Proposal:**

This Categorical Exclusion supersedes the original and is therefore valid only from signature date through the end of calendar year 2014. If construction has not commenced within that time, Western’s Environmental Division must be contacted for an updated environmental review prior to construction.

If the scope of work of this project changes, Western’s Environmental Division must be contacted for additional environmental review.

If any cultural materials are discovered during construction, work in the area shall halt immediately, Western’s regional preservation officer shall be contacted, and the material be evaluated by an archaeologist or historian meeting the Secretary of the Interior’s Professional Qualification Standards (48 FR 22716, Sept. 1983).

Western will implement standard best management practices for erosion, seeding, and noxious weed control. Western’s clean vehicle policy requires that all equipment used for construction be washed and cleaned prior to use in the area to prevent transporting of invasive plant or noxious weed seeds.

Construction activities shall be conducted to minimize scarring, or defacing of the natural surroundings in the vicinity of the work. Except where clearing results from direct unavoidable impacts, vegetation shall be preserved and shall be protected from damage by the construction equipment.

**Rocky Mountain Region, Western Area Power Administration**

**Poncha Springs Substation 230-kV Bay Addition (Amended)  
Chaffee County, Colorado**

**E. Determination:** Based on my review of information provided to me and in my possession concerning the proposed action, I determined that the proposed action fits within the specified class of actions, the other regulatory requirements set forth above are met, and the proposed action is categorically excluded from requirements for an EA or an EIS.

**Conditions That Are Integral Elements of the Classes  
of Actions in Appendix B That Apply to This Proposal**

Checklist for Categorical Exclusion Determination, revised Nov. 2011

| <b>Application of Categorical Exclusions (1021.410)</b>   | <b>Disagree</b> | <b>Agree</b> | <b>Unknown</b> |
|---|-----------------|--------------|----------------|
| (b)(1) The proposal fits within a class of actions that is listed in appendix B to subpart D.   |                 | X            |                |
| (b)(2) There are no extraordinary circumstances related to the proposal that may affect the significance of the environmental effects of the proposal, including, but not limited to, scientific controversy about the environmental effects of the proposal; uncertain effects or effects involving unique or unknown risks; and unresolved conflicts concerning alternate uses of available resources.  |                 | X            |                |
| (b)(3) The proposal has not been segmented to meet the definition of a categorical exclusion. Segmentation can occur when a proposal is broken down into small parts in order to avoid the appearance of significance of the total action. The scope of a proposal must include the consideration of connected and cumulative actions, that is, the proposal is not connected to other actions with potentially significant impacts (40 CFR 1508.25(a)(1)), is not related to other actions with individually insignificant but cumulatively significant impacts (40 CFR 1508.27(b)(7)), and is not precluded by 40 CFR 1506.1 or § 1021.211 of this part concerning limitations on actions during EIS preparation. |                 | X            |                |
| <b>B. Conditions that are Integral Elements of the Classes of Actions in Appendix B.</b>  | NO              | YES          | Unknown        |
| (1) Threaten a violation of applicable statutory, regulatory, or permit requirements for environment, safety and health, or similar requirements of DOE or Executive Orders.  | X               |              |                |
| (2) Require siting and construction or major expansion of waste storage, disposal, recovery, or treatment facilities (including incinerators), but the proposal may include categorically excluded waste storage, disposal, recovery, or treatment actions or facilities;   | X               |              |                |
| (3) Disturb hazardous substances, pollutants, contaminants, or CERCLA-excluded petroleum and natural gas products that preexist in the environment such that there would be uncontrolled or unpermitted releases;   | X               |              |                |
| (4) Have the potential to cause significant impacts on environmentally sensitive resources. An environmentally sensitive resource is typically a resource that has been identified as needing protection through Executive Order,   | X               |              |                |

| <p>statue, or regulation by Federal, state, or local government, or a federally recognized Indian tribe. An action may be categorically excluded if, although sensitive resources are present, the action would not have the potential to cause significant impacts on those resources (such as construction of a building with its foundation well above a sole-source aquifer or upland surface soil removal on a site that has wetlands). Environmentally sensitive resources include, but are not limited to:</p>  |   |  |  |
| <p>(i) Property (such as sites, buildings, structures, and objects) of historic, archaeological, or architectural significance designated by a Federal, state, or local government, or property determined to be eligible for listing on the National Register of Historic Places;</p>   | X |  |  |
| <p>(ii) Federally-listed threatened or endangered species or their habitat (including critical habitat) or Federally-proposed or candidate species or their habitat (Endangered Species Act); state-listed or state-proposed endangered or threatened species or their habitat; Federally-protected marine mammals and Essential Fish Habitat (Marine Mammal Protection Act; Magnuson-Stevens Fishery Conservation and Management Act); and otherwise Federally-protected species (such as under the Bald and Golden Eagle Protection Act or the Migratory Bird Treaty Act);</p> | X |  |  |
| <p>(iii) Floodplains and wetlands (as defined in 10 CFR 1022.4, —Compliance with Floodplain and Wetland Environmental Review Requirements: “Definitions,” or its successor);</p>   | X |  |  |
| <p>(iv) Areas having a special designation such as Federally- and state-designated wilderness areas, national parks, national monuments, national natural landmarks, wild and scenic rivers, state and Federal wildlife refuges, scenic areas (such as National Scenic and Historic Trails or National Scenic Areas), and marine sanctuaries;</p>  | X |  |  |
| <p>(v) Prime or unique farmland, or other farmland of statewide or local importance, as defined at 7 CFR 658.2(a), —Farmland Protection Policy Act: Definitions, or its successor;</p>   | X |  |  |
| <p>(vi) Special sources of water (such as sole-source aquifers, wellhead protection areas, and other water sources that are vital in a region); and</p>  | X |  |  |
| <p>(vii) Tundra, coral reefs, or rain forests; or</p>  | X |  |  |
