Dear Mr. Harris

I am contacting you to offer my enthusiastic support for the 2021 Power Marketing Initiative proposal for which a Federal Register Notice was recently published. As a small, rural electric power cooperative and a member of East River Electric, renewal of the firm power contracts are vitally important to our members, our communities and our economies. While I certainly support the 30 year contract renewal period, I would encourage you to extend the contract period to 40 years. This would provide enhanced stability in a very unstable environment.

Thank you very much for your efforts and thoughtful consideration of this proposal.

Sincerely

John Gors
