Re: Comments of City of Healdsburg Electric Utility Regarding Western's Notice of Proposed 2015 Resource Pool Size and Revised Eligibility Criteria Published May 5, 2008, at 73 FR 24592

Dear Ms. Anderson:

The City of Healdsburg Electric Utility (HEU) has benefited from the Western Base Resource for many years. HEU's current Western Base Resource allocation is 0.18594%. For fiscal year 2007 – 2008 this was approximately 4,695.1 MWh or 5.9% of our customers' energy needs.

The HEU supports the City of Lodi Electric Utility in their request regarding the criteria in the 2015 Resource Pool Eligibility Criteria that "Existing Customers may apply for a resource pool allocation if their Extension CRD, set forth in Appendix A [of the Marketing Plan (in) Federal Register 64 FR 34417] is not more than 15 percent of their peak load in the calendar year prior to the Call for Applications, and not more than 10 MW".

Please feel free to contact me via U.S. Mail, phone or email as listed in this letter.

Respectfully submitted,

Elizabeth Kirkley  
Electric Utility Director
