

PUBLIC WORKSHOPS ON PATH 15 TRANSMISSION LINE PROJECT

Western Area Power Administration invites you to attend public workshops on the Path 15 Project, a proposed 500-kV transmission line that would run through the western foothills from Los Banos Substation to Gates Substation near Coalinga, Calif. These workshops will be informal, so we can sit down over maps to discuss the route and answer your questions about the impact of the project on your property and the environment.

7 pm., Aug. 27
Coalinga Library Program Room
395 N. 4th Street (4th and Durian)
Coalinga

7 pm., Aug. 28
City Council Chambers
Los Banos City Hall
Los Banos

For additional information, visit our website at www.wapa.gov and click on Path 15, or call us toll-free at 1-866-290-9686.
