---

Dear Desert Southwest Region Customers and Interested Parties:

Western Area Power Administration's (WAPA) rate order extending the formula rates for Network Integration Transmission Service (Network) on the Pacific Northwest-Pacific Southwest Intertie Project (Intertie) and Parker-Davis Project (P-DP), along with formula rates for ancillary services, transmission losses, and unreserved use penalties applicable to the Desert Southwest Region (DSW) and Western Area Lower Colorado Balancing Authority (WALC) published Monday, August 30, 2021, in the *Federal Register*. This rate extension makes no changes to the existing formula rates and extends them through September 30, 2026. A copy of the notice is attached.

In addition, WAPA has calculated the fiscal year (FY) 2022 charges for ancillary services for DSW and WALC along with the revenue requirements for Network on the Intertie and P-DP. The following tables contain the charges and revenue requirements that will be effective on October 1, 2021.

Rate Schedule	Ancillary Services	FY 2022
DSW-SD4	Scheduling, System Control and Dispatch	\$15.84 per schedule per day
DSW-RS4	Reactive Supply and Voltage Control	\$0.059/kW-Month
DSW-FR4	Regulation and Frequency Response	\$0.085/kW-Month

Rate Schedule	Transmission Service	FY 2022
INT-NTS4	Intertie Network	\$31,815,326 <sup>1</sup>
PDP-NTS4	P-DP Network	\$53,510,566 <sup>1</sup>

<sup>1</sup> The monthly charge is the product of the Network customer's load ratio share times one twelfth of the annual transmission revenue requirement for the applicable transmission system.

Information concerning these charges will be available on WAPA's website at <https://www.wapa.gov/regions/DSW/Rates/Pages/AnnualCharges.aspx>.

If you have any questions or need additional information, please contact Todd Statler at (602) 605-2781, [statler@wapa.gov](mailto:statler@wapa.gov).

Sincerely,

**Jim Kendrick | Vice President of Power Marketing**
