---

Dear DSW Representatives:

As recently discussed with Ron and others of DSW, the attached JPA and attachments are submitted.

The agreement reflects revisions to Section 6.4 and Section 16 as well as a few other small areas of proposed changes. Customers are confident that these improvements will serve all parties of the agreement. The revisions clarify certain provisions, improve the process for successful implementation and enable continued use into the future.

P-DP and INT Customers and DSW have spent considerable time and effort to establish a new agreement that benefits all parties. We appreciate that this has been a cooperative effort and trust that these final revisions will be incorporated into the final agreement.

We look forward to working with DSW in early calendar year 2019 to begin working on a new Customer Prepayment Memorandum of Understanding (MOU). Updating the prepayment process to meet current and future needs will enable Customers and DSW to better plan for the future.

*Submitted On behalf of the Customers,*

*Best Regards,*
