Dear DSW Folks:

At our last meeting, we discussed a number of outstanding issues that need to be resolved for us to be able to include them into the new JPA. Customers agreed to provide a Customer position prior to our upcoming meeting. As agreed, PDP/INT Customers have requested that I provide you with the following:

**TOPICS:**

1. Transmission Planning.
2. Termination of Prior Agreement.
3. Sovereign Immunity.
4. Ten-Year Plan Voting.
5. Meeting Notification.
6. Annual Meeting Schedule.

The attached documents provide some details for these topics and 3 attachments that will provide additional, or more details, information.

There are also a couple of other administrative issues that Customers request WAPA/DSW accomplish prior to our next meeting. Customers request:

1. DSW provide its final draft JPA.
2. Transmission Planning and TYP representatives who can make decisions, attend our next meeting to help provide clarification and expertise
3. DSW to schedule new JPA negotiation meetings every two weeks subsequent to the August 27th meeting.

If you have any questions of us, please fee free to get in touch with us prior to Monday's meeting.

*Best Regards,*
