Subject: WAPA-SN Short-Term Sale of Surplus Products

Dear Sierra Nevada Central Valley Project Customers and Interested Parties:

On December 17, 2020, Western Area Power Administration (WAPA) Sierra Nevada (SN) Region provided notification that we were in the process of requesting approval of a short-term formula rate for the sale of Surplus Products, to allow WAPA to provide Frequency Response Reserve (FRR) service beginning on January 14, 2021. The short-term rate is required to bridge the gap in time between the implementation date for FRR on January 14, 2021, and the effective date of the new proposed Sale of Surplus Products Rate Schedule on March 25, 2021. This email is to provide notification that our Administrator has approved the formula rate for the Short-Term Sale of Surplus Products, Rate Schedule CV-SSP1, effective January 1, 2021, through December 31, 2021, or until superseded. The rate schedule for the Short-Term Sale of Surplus Products can be found on WAPA's website at <https://www.wapa.gov/regions/SN/rates/Documents/cv-ssp1.pdf>.

If you have any questions, please feel free to contact the WAPA-SN Rates team at SNR-RateCase@wapa.gov.

Thank you,

Barbara Lynch | Public Utilities Specialist – SNR Rates
