Western Area Power Administration  
Desert Southwest Customer Service Region  
P.O. Box 6457  
Phoenix, AZ 85005-6457

June 1, 2018

Dear Boulder Canyon Project Contractors:

The Boulder Canyon Project (BCP) electric service contracts require that Western Area Power Administration (WAPA) furnish a Final Master Schedule which includes:

1. Updated Bureau of Reclamation (Reclamation) Estimated 17-Month Operations Schedule for Hoover power plant showing estimated power generation and estimated maintenance outages;
2. Updated Hoover Energy Entitlements reflecting the forecast of energy available based on Reclamation's 24-Month Study; and
3. Updated Hoover Contract Schedule A, Schedule B & Schedule D Capacity forecasts.

Accordingly, the Boulder Canyon Project Final Master Schedule for the period June 1, 2018 to September 30, 2019 is now available for download on the Hoover Portal at <https://portal.wapa.gov/wapa-web-portal/login>. If you do not yet have a login for the Hoover Portal, please send an email with your name, email, phone number, and whom you are representing to: [HooverPortal@wapa.gov](mailto:HooverPortal@wapa.gov). If you are not a direct employee of a Hoover Contractor, you must also obtain and submit a concurrence from the Hoover Contractor that you are authorized to represent said Hoover Contractor.

To download the various components of the Master Schedule, follow the instructions below:

1. To download the 17-Month Operating Schedule in PDF format, upon login, navigate to the **Capacity** menu, select **Unit Outage**, and click on the **Download BOR 17 Month Schedule** button.
2. To download the Hoover Energy Entitlements for FY2018 & FY2019 in Excel format, navigate to the **Energy** menu and select **Master Schedule**. To download the entire Master Schedule, select the appropriate **FY** in the window next to the **Get Master Schedule** button, press the **Select All** button at the bottom of the window and then press the **Get Master Schedule** button. Once the information appears on the screen, press the **Export to Excel** button to download. Any combination of Contractor and Schedule Definitions can be selected for download in addition to the full Master Schedule.
3. To download the Hoover Contract Schedule A, Schedule B & Schedule D Capacity forecasts in Excel format, navigate to the **Capacity** menu and select **Contractor Forecast**.

To download the entire Master Schedule Capacity forecast, press the **Export to Excel** button. Under the **Report Type: Fiscal Year**, select the appropriate **FY** and press the **Download** button. Any combination of Contractor and Schedule Definitions can be selected for download in addition to the full Master Schedule.

The data stored in the Hoover Portal is dynamic meaning that as soon as new data is available, the Hoover Portal is updated. If a data update occurs after the official Master Schedule has been issued, any Master Schedules downloaded subsequent to the data update will not match the official Master Schedule. Therefore, the official Master Schedules, in their entirety, and the current and historical 17-Month Operating Schedules will be stored and available for download under the Boulder Canyon heading, at the following website:

<https://www.wapa.gov/regions/DSW/PowerMarketing/Pages/power-marketing.aspx>

Changes since the second draft of the Master Schedule include updated forecasts of the Available Capacity and Contractors Available Energy for the remainder of fiscal year (FY) 2018, and updated forecasts for the Available Capacity and the Contractors Available Energy for FY 2019.

Other possible changes would have included the results of the Stage 1 & 2 Resource Integration Exchange (RIE) program. Unfortunately, no Stage 1 or 2 RIE could be accommodated for FY 2019.

Based upon lower basin water release forecasts, there is no projected Schedule C Energy for FY 2018 at the present time. Each contractor should anticipate modifications due to changing hydrological river conditions for the remainder of FY 2017 and for FY 2018. Contractors should also be aware of the potential for changes in administrative dispositions concerning the quantities of downstream water releases.

The Final Master Schedule for the period June 1, 2018 to September 30, 2019 will be available for download on or before June 1, 2018.

If you have any questions, please call Xavier Gonzalez at (602) 605-2678.

Sincerely,

**Jack D. Murray | Vice President of Power Marketing**  
Western Area Power Administration | Desert Southwest Region

December 2017

Table with columns: Scheduling Definition, Contractor, Capacity (996) to Capacity (1113), and 24 columns of Real (MW) and Rd Down values. Includes sections for various states and agencies like AEP, AZPS, CDWR, etc.

Table with columns for Scheduling Definition, Contractor, and various capacity metrics (e.g., Capacity (1027), Capacity (1022), Capacity (1011), Capacity (1019), Capacity (1024), Capacity (981), Capacity (1008), Capacity (825), Capacity (1023), Capacity (1115), Capacity (1209)). Rows include various utility providers like Ariza Electric Cooperative, Arizona Power Authority, and various Indian Tribes.
