

Department of Energy
Western Area Power Administration
Desert Southwest Customer Service Region
P.O. Box 6457
Phoenix, AZ 85005-6457

Dear Boulder Canyon Project Contractors:

The Boulder Canyon Project (BCP) electric service contracts require that Western Area Power Administration (WAPA) furnish a first draft of the Master Schedule which includes:

1. Bureau of Reclamation Estimated 17-Month Operations Schedule for Hoover power plant showing estimated power generation and estimated maintenance outages;
2. Hoover Energy Entitlement showing a draft release pattern schedule reflecting the forecast of energy available; and
3. Hoover Contract Schedule A, Schedule B & Schedule D Capacity forecasts.

Accordingly, the Boulder Canyon Project 1st Draft Master Schedule for the period March 1, 2018 to July 31, 2019 is now available to download on the Hoover Portal at <https://portal.wapa.gov/wapa-web-portal/login>. If you do not yet have a login for the Hoover Portal, please send an email with your name, email, phone number, and whom you are representing to: HooverPortal@wapa.gov. If you are not a direct employee of a Hoover Contractor, you must also obtain and submit a concurrence from the Hoover Contractor that you are authorized to represent said Hoover Contractor.

1. To download the 17-Month Operations Schedule in PDF format, upon login, navigate to the **Capacity** menu, select **Unit Outage**, and click on the **Download BOR 17 Month Schedule** button.
2. To download the Hoover Energy Entitlements for FY2018 & FY2019 in Excel format, navigate to the **Energy** menu and select **Master Schedule**. To download the entire Master Schedule, select the appropriate **FY** in the window next to the **Get Master Schedule** button, press the **Select All** button at the bottom of the window and then press the **Get Master Schedule** button. Once the information appears on the screen, press the **Export to Excel** button to download. Any combination of Contractor and Schedule Definitions can be selected for download in addition to the full Master Schedule.
3. To download the Hoover Contract Schedule A, Schedule B & Schedule D Capacity forecasts in Excel format, navigate to the **Capacity** menu and select **Contractor Forecast**. To download the entire Master Schedule Capacity forecast, press the **Export to Excel** button. Under the **Report Type: Fiscal Year**, select the appropriate **FY** and press

the **Download** button. Any combination of Contractor and Schedule Definitions can be selected for download in addition to the full Master Schedule.

Included in the first draft of the Master Schedule is the actual Contractors Energy through February for FY 2018. Also included are the forecasted Available Capacity and Contractors Available Energy for the remainder of FY 2018, and the forecasted Available Capacity for FY 2019 (through July 2019) and the Contractors Available Energy for the complete FY 2019.

Based upon lower basin water release forecasts, there is no projected Schedule C Energy for FY 2019 at the present time. Each contractor should anticipate modifications due to changing hydrological river conditions during FY 2018 and FY 2019. Contractors should also be aware of the potential for changes in administrative dispositions concerning the quantities of downstream water releases.

WAPA is offering a two-stage monthly exchange of energy known as the Resource Integration Exchange Program (RIE) for FY 2019. Enclosed you will find a brief overview of the RIE (attached).

If you wish to participate in the BCP RIE for FY 2019, please enter your exchange request information on the enclosed form (attached), and submit to WAPA via e-mail, fax or mail to the following by the **close of business Friday, April 13, 2018:**

Western Area Power Administration
Desert Southwest Regional Office
ATTN: Xavier Gonzalez, G6340
P.O. Box 6457
Phoenix, AZ 85005-6457

Fax: 602-605-2490
Email: xgonzalez@wapa.gov

If you have any questions, please call Xavier Gonzalez at (602) 605-2678.

Sincerely,

Jack D. Murray | Vice President of Power Marketing

**Brief Overview Of The
Boulder Canyon Project (BCP)
Resource Integration Exchange Program For FY2019**

The Resource Integration Exchange Program (RIE) is administered in two (2) stages: Stage 1 and Stage 2. The RIE is strictly voluntary and there is no obligation to participate.

Stage 1:

A Stage 1 exchange is simply an exchange of energy within the respective project (BCP with BCP contractors). The first draft of the BCP Master Schedule provides each BCP contractor with a monthly energy allocation for FY2019. If you wish to participate, use the attached form (BCPexchangeformFY2019.xls). Under the column heading “1st Draft Master Schedule Allocation” input the monthly energy allocation for FY2019. Under the column heading “PROPOSED ALLOCATION” input the quantity of energy one would like to request instead of the monthly 1st Draft Master Schedule Allocation. The only restrictions on the PROPOSED ALLOCATION requests are that the contractor cannot exceed his original total annual energy allocation and each new monthly energy request cannot exceed 100% load factor.

The key to making the exchange work is that there must be offsetting energy requests. For example: If a contractor wants to reduce his allocation in February and increase his allocation in June, there must be another contractor or contractors who are willing to do just the opposite. Since it is rare that offsetting energy allocation requests match perfectly, in most cases, partial energy exchanges are granted. Some contractors are denied their requests because there are absolutely no offsetting requests and some contractors choose not to participate at all.

Stage 2:

Once WAPA has matched Stage 1 requests to the maximum extent possible, an effort is made to find offsetting requests between Parker-Davis Project (P-DP) and BCP contractors who participated in the RIE. A Stage 2 exchange is an effort to further provide contractors added value by exchanging energy between the P-DP and BCP projects.

The final revised allocations are reflected in the contractor’s BCP Final Hoover Master Schedule.

The Capacity column on this spreadsheet lists the most recent information on capacity provided to Western Area Power Administration in the unit capacity letter dated February 20, 2018. The 17-Month Operating Schedule incorporates calculated projections of future capacity based on the February 12, 2018 24-Month Study and current Capacity letter.
