Subject: Application for Power Allocation, Parker-Davis Project Post-2008 Resource Pool

Dear Mr. Carlson:

On behalf of the Colorado River Indian Tribes, I hereby submit this application to Western Area Power Administration for an allocation of power from the Parker-Davis Project Post-2008 Resource Pool. Enclosed is a copy of the completed four-page Applicant Profile Data together with a two-page supplement. This application is submitted pursuant to a call for applications published in the Federal Register on October 1, 2004.

In relation to this allocation, we submit the following comments on the allocation procedure. Only 17 megawatts are planned for the resource pool, to be assigned to applicants in one-megawatt minimum allocations. We believe the one-megawatt minimum should be decreased or eliminated in order to allow more applicants to benefit. Also, we feel the current version of the General Power Contract Provisions is sufficient and should not be altered to apply to new allocations from the Post-2008 Resource Pool.

Please acknowledge receipt of this submittal. Also if any data clarifications are required, please direct questions to our consultant, Leland Gardner at (408) 737-1845.

Sincerely yours,

Daniel Eddy, Jr.
Chairman
