

Department of Energy
Western Area Power Administration
Desert Southwest Customer Service Region
P.O. Box 6457
Phoenix, AZ 85005-6457

May 1, 2018

Dear Boulder Canyon Project Contractors:

Section 6.10.2 of the Boulder Canyon Project (BCP) electric service contracts require that Western Area Power Administration (WAPA) furnish a second draft of the Master Schedule which includes:

1. Bureau of Reclamation Estimated 17-Month Operations Schedule for Hoover power plant showing estimated power generation and estimated maintenance outages;
2. Hoover Energy Entitlement showing a draft release pattern schedule reflecting the forecast of energy available; and
3. Hoover Contract Schedule A, Schedule B & Schedule D Capacity forecasts.

Accordingly, the Boulder Canyon Project 2nd Draft Master Schedule for the period May 1, 2018 to September 30, 2019 is now available for download on the Hoover Portal at <https://portal.wapa.gov/wapa-web-portal/login>. If you do not yet have a login for the Hoover Portal, please send an email with your name, email, phone number, and whom you are representing to: HooverPortal@wapa.gov. If you are not a direct employee of a Hoover Contractor, you must also obtain and submit a concurrence from the Hoover Contractor that you are authorized to represent said Hoover Contractor.

To download the various components of the Master Schedule, follow the instructions below:

1. To download the 17-Month Operating Schedule in PDF format, upon login, navigate to the **Capacity** menu, select **Unit Outage**, and click on the **Download BOR 17 Month Schedule** button.
2. To download the Hoover Energy Entitlements for FY2018 & FY2019 in Excel format, navigate to the **Energy** menu and select **Master Schedule**. To download the entire Master Schedule, select the appropriate **FY** in the window next to the **Get Master Schedule** button, press the **Select All** button at the bottom of the window and then press the **Get Master Schedule** button. Once the information appears on the screen, press the **Export to Excel** button to download. Any combination of Contractor and Schedule Definitions can be selected for download in addition to the full Master Schedule.
3. To download the Hoover Contract Schedule A, Schedule B & Schedule D Capacity forecasts in Excel format, navigate to the **Capacity** menu and select **Contractor Forecast**. To download the entire Master Schedule Capacity forecast, press the **Export to Excel** button. Under the **Report Type: Fiscal Year**, select the appropriate **FY** and press the **Download** button. Any combination of Contractor and Schedule Definitions can be selected for download in addition to the full Master Schedule.

The data stored in the Hoover Portal is dynamic meaning that as soon as new data is available, the Hoover Portal is updated. If a data update occurs after the official Master Schedule has been issued, any Master Schedules downloaded subsequent to the data update will not match the official Master Schedule. Therefore, the official Master Schedules, in their entirety, and the current and historical 17-Month Operating Schedules will be stored and available for download under the Boulder Canyon heading, at the following website:

<https://www.wapa.gov/regions/DSW/PowerMarketing/Pages/power-marketing.aspx>.

Changes since the first draft of the Master Schedule include updated forecasts of the Available Capacity and Contractors Available Energy for the remainder of fiscal year (FY) 2018, and updated forecasts for the Available Capacity and the Contractors Available Energy for FY 2019.

Other possible changes would have included the results of the Stage 1 & 2 Resource Integration Exchange (RIE) program. Unfortunately, no Stage 1 or 2 RIE could be accommodated for FY 2019.

Based upon lower basin water release forecasts, there is no projected Schedule C Energy for FY 2019 at the present time. Each contractor should anticipate modifications due to changing hydrological river conditions during FY 2018 and FY 2019. Contractors should also be aware of the potential for changes in administrative dispositions concerning the quantities of downstream water releases.

The Final Master Schedule for the period June 1, 2018 to September 30, 2019 will be available for download on or before June 1, 2018.

If you have any questions, please contact Xavier Gonzalez at (602) 605-2678, or e-mail to XGonzalez@wapa.gov.

Sincerely,

Jack D. Murray | Vice President of Power Marketing
Western Area Power Administration | Desert Southwest Region

The Max Capacity row above lists the most recent information on capacity provided to Western Area Power Administration in the unit capacity letter dated February 20, 2018. The 17-Month Operating Schedule incorporates calculated projections of future capacity based on the April 11, 2018 24-Month Study and current Capacity letter.
