Western Area Power Administration

Powering the energy frontier

Good day,

The Open Access Transmission Tariff redlines for OATT Revision 22-01 are now available at WAPA's [Open Access Same-Time Information System](#). The presentation for the July 14 webinar will be posted on OASIS soon.

As stated in the June 2 [announcement](#), OATT Revision 22-01 will address Desert Southwest's participation in the California Independent System Operator Western Energy Imbalance Market starting around April 5, 2023, as well as make other clean up and maintenance updates.

The OATT redlines include changes to the main body of WAPA's OATT and a proposed new Attachment T. The availability of the redlines starts a 30-day informal comment period for customers and other stakeholders that will end Aug. 1.

We want to hear from you as we evaluate these changes. [Join us for the webinar](#) July 14 at 10 a.m. MDT/9 a.m. Arizona time to review the proposed revisions and the expected filing schedule.
