Subject: One Transmission Rate
Date: Friday, June 30, 2023 3:18:01 PM
Attachments: [WAPA-209 \(Proposed\).pdf](#)

Dear Desert Southwest Region Customers and Interested Parties:

The Desert Southwest Region (DSW) of Western Area Power Administration (WAPA) proposes to combine the transmission service rates of the Central Arizona Project, southern portion of the Pacific Northwest-Pacific Southwest Intertie Project, and Parker-Davis Project (PDP); and the facilities use charge for the Electrical District No. 5 to Palo Verde Hub Project.

Attached for your information is a copy of the *Federal Register* notice published on June 30, 2023. This notice initiates the formal process for establishing new formula rates for firm and nonfirm point-to-point and network integration transmission service, along with revising the existing formula rates for PDP firm electric service and firm transmission service of Salt Lake City Area/Integrated Projects power.

DSW will provide a detailed explanation of the proposed formula rates and other revisions at a public information forum on August 7, 2023, at 10 a.m. (MST/PDT). Instructions for participating in the forum and information concerning the proposed formula rates will be available on WAPA's website prior to the forum at: www.wapa.gov/regions/DSW/Rates/Pages/OTR.aspx.

If you have any questions or need additional information, please contact Todd Statler at (602) 605-2781, statler@wapa.gov.

Sincerely,

Tina Ramsey | Rates Manager

Western Area Power Administration | Desert Southwest Region
