Where:

PACI Transmission Revenue Requirement = Is WAPA-SN's costs associated with facilities that support the transfer capability of the PACI.

WAPA-SN's PACI Capacity = Is WAPA-SN's share of PACI transmission capacity, subject to curtailment under the current California-Oregon Intertie (COI) transfer capability.

WAPA-SN will update the rate from Component 1 at least 15 days before the start of the rate period. Rate change notifications will be posted on WAPA-SN's Open Access Same-Time Information System (OASIS).

Component 2

Any charges or credits associated with the creation, termination, or modification to any tariff, contract, or rate schedule accepted or approved by FERC or other regulatory body will be passed on to each relevant customer. The charges or credits apply to the service to which this rate methodology applies. When possible, WAPA-SN will pass through charges or credits directly to the customer in the same manner WAPA-SN is charged or credited. When not possible, the charges or credits will be passed through using Component 1 of the formula rate.

Component 3

Any charges or credits from the Host Balancing Authority for providing this service will be passed on to each relevant customer. When possible, WAPA-SN will pass through charges and

credits directly to the customer in the same manner WAPA-SN is charged or credited. When not possible, the charges or credits will be passed through using Component 1 of the formula rate.

Billing

The formula rate above applies to the maximum amount of capacity reserved for periods ranging from 1 hour to 1 month, payable whether used or not. Billing will occur monthly.

Adjustment for Losses

Losses incurred for service under this rate schedule will be accounted for as agreed to by the parties in accordance with the service agreement.

Audit Adjustments

Financial audit adjustments that apply to the formula rate under this rate schedule will be evaluated on a case-by-case basis to determine the appropriate treatment for repayment and cash flow management.
