February 1, 2021, through September 30, 2021)**

**UNITED STATES DEPARTMENT OF ENERGY
WESTERN AREA POWER ADMINISTRATION**

**ROCKY MOUNTAIN REGION
Loveland Area Projects
Western Area Colorado Missouri Balancing Authority**

**ENERGY IMBALANCE SERVICE
(Approved Under Rate Order No. WAPA-197)**

Effective

The first day of the first full billing period beginning on or after October 1, 2021, and extending through September 30, 2024, or until superseded by another rate schedule, whichever occurs earlier. [Note: This rate schedule was extended by Rate Order No. WAPA-214 through September 30, 2026.]

Applicable

This rate schedule applies to the Western Area Colorado Missouri Balancing Authority (WACM) as the Balancing Authority Area (BAA) operator and to Loveland Area Projects (LAPT) as the Transmission Service Provider (TSP) when the Rocky Mountain Region (RM) is participating in the Western Energy Imbalance Service (WEIS) Market and the WEIS Market is providing such ancillary service.

Within the BAA(s) in the WEIS Market footprint, Energy Imbalance Service is provided when a difference occurs between the expected and the actual delivery of energy within such BAA(s) over a Dispatch Interval.

All loads in the WEIS Market will be subject to settlement related to Energy Imbalance Service in the WEIS Market. Southwest Power Pool, Inc. (SPP), as the WEIS Market administrator, will obtain and provide this service under the WEIS Market and will calculate and bill applicable charges and credits.

As a participating balancing authority in the WEIS Market footprint, WACM is required to register loads and resources for non-participating entities within the WACM BAA. Such entities must enter into separate agreements with WACM which will specify the terms of the Energy Imbalance Service contracted through the WEIS Market.

The LAPT TSP offers this service when the transmission service is used to serve load within the WACM BAA, and the Transmission Customers must either purchase this service from the LAPT TSP or make alternative arrangements with WACM to satisfy their Energy Imbalance Service obligations.

Formula Rate

Charges shall reflect the pass-through of all applicable charges/credits associated with the WEIS Tariff assessed to RM for embedded load in the WACM BAA of such entity that does not make adequate alternate arrangements in the WEIS Market to satisfy its Energy Imbalance Service obligation. RM will also charge an administrative fee to cover RM's cost of administering this service on behalf of such entities.

The WEIS charges/credits attributed to specific settlement location(s) (as defined in the WEIS Tariff) will be passed directly through to the applicable asset owners (as defined in the WEIS Tariff) at those settlement location(s). Other WEIS charges/credits, i.e., WEIS Administration costs, will be allocated based on each entity's proportional share of Net Energy for Load (NEL) (or as otherwise determined by the WEIS

administrator).

RM's Administrative Fee will be allocated to the non-participating entities using the higher of either RM's calculated minimum fee or the entity's proportional share of the non-participating entities' NEL.
