

FACT SHEET

WAPA serves Arizona

Western Area Power Administration is a federal agency under the Department of Energy that markets and delivers reliable, hydroelectric power and transmission services.

WAPA manages a 15-state, high-voltage transmission network serving more than 680 utility customers – municipalities, public power cooperatives and state and federal agencies, among others – which in turn provide power to 40 million Americans.

WAPA keeps the lights on for communities across the West and Great Plains. Our work ensures affordable energy reaches millions of people while supporting grid reliability and national security.
