March 12, 2026

To Central Valley Project Transmission Customers and Interested Parties:

Effective April 1, 2026, the Western Area Power Administration's (WAPA) Regulation and Frequency Response Service rate will be \$5.64 per kilowatt-month (kW-month).

In accordance with Rate Order No. WAPA-207, Rate Schedule CV-RFS5, WAPA revises the rate when either of the following conditions occur: (a) WAPA receives updated financial data in March of each year, or (b) a change in the numerator or denominator that results in a rate change of at least \$0.25 per kW-month.

Based on updated financial and operational data, the rate change is an increase of \$0.62 per kW-month, which is primarily due to an increase in operation and maintenance expenses, a decrease in regulation capacity and a decrease in the maximum annual peak plant capacity.

The new rate and revenue requirement are listed in the table below.

Rate Schedule CV-RFS5 Regulation and Frequency Response Service	Current Rates	New Rates
	April 1, 2025, through March 31, 2026	Effective April 1, 2026, until superseded
	Rate or Revenue Requirement	
\$/kW-month	\$5.02	\$5.64
Annual Revenue Requirement	\$1,625,382	\$1,557,068

If you have any questions regarding the above information, please contact Mrs. Autumn Wolfe at (916) 353-4686 or by email at wolfe@wapa.gov.

Sincerely,

Autumn Wolfe
Rates Manager
