SENT ELECTRONICALLY

Dear Colorado River Storage Project Customer and Interested Parties:

Western Area Power Administration (WAPA) Colorado River Storage Project (CRSP) Region (CRSPR) will host a meeting on **Wednesday, September 16, at 10:00 a.m. MDT**. This meeting is to discuss CRSP's Calendar Year (CY) 2027 annual transmission revenue requirement (ATRR) as defined under Rate Order No. WAPA-220, effective April 1, 2026.

Background

On September 24, 2025, the Federal Energy Regulatory Commission (FERC) approved Rate Order No. WAPA-220 ([192 FERC ¶ 62,199](#)), which outlines CRSPR's recovery of costs for transmission and ancillary services. Under the Protocols provision included in Rate Order No. WAPA-220, all relevant information pertaining to CRSP's annual updates, customer notifications, review periods, and meeting requirements will be identified to ensure interested parties are aware of the data used to calculate the formula rates and are provided the opportunity to comment before the costs are collected through the formula rates.
